WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

8. SHOWING

The enclosed statement will show that the delay in timely payment of the maintenance fee was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that this petition is being filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The statement must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which the patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

9. PETITIONER(S) REQUESTS THAT THE DELAYED PAYMENT OF THE MAINTENANCE FEE BE ACCEPTED AND THE PATENT REINSTATED.

PETITION PURSUANT TO 37 C.F.R. § 1.378
TO ACCEPT AN UNAVOIDABLY DELAYED
PAYMENT OF A MAINTENANCE FEE IN AN
EXPIRED PATENT TO REINSTATE PATENT

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In accordance with 37 C.F.R. § 1.378, Applicant respectfully petitions to accept an unavoidably delayed payment of a maintenance fee in an expired patent to reinstate patent.

Patent No. 6,402,070 expired on June 11, 2006 due to Applicant's failure to timely pay the maintenance fee. The failure to pay the maintenance fee was unavoidable due to the following circumstances.

Kyocera Corporation (hereinafter referred to as "Kyocera") (Kyoto, Japan), the assignee of Patent No. 6,402,070 relied on Ai Association of Patent and Trademark Attorneys (hereinafter referred to as "Ai Association") (Osaka, Japan) to communicate instructions to the U.S. law firm Hogan Lovells US LLP (hereinafter

referred to as "Hogan Lovells") (formerly Hogan & Hartson LLP). Hogan Lovells, in turn, communicated with the USPTO.

As detailed in the attached declaration by Fumiko Otake of Ai Association (Appendix 1 and Exhibit 1), on July 22, 2010, Kyocera informed Ai Association that Kyocera planned to transfer the responsibility of paying the maintenance fees for five cases from Hogan Lovells to another entity.

In view of Kyocera's instructions, on August 2, 2010, Ai Association confirmed the upcoming due dates for the payment of maintenance fees for these five cases. This was done as a prelude to notifying Hogan Lovells that Kyocera intended to transfer the maintenance fee responsibilities. At this time, upon reviewing its records, Ai Association, noticed that a record of a due date for the maintenance fee payment for Patent No. 6,402,070 was omitted from their docketing system.

Ai Association determined that a card used to manage the payment of maintenance fees was not passed on to the person in charge of maintenance fees. Appendix 2 includes a sworn statement, from Mami Kitani, which states,

"I, Mami Kitani, a desk worker in charge of the present case, declare that I should have handed the management card to the person in charge of the annuity management soon after it was outputted but I did not, that I had completely forgot to do so because I had put the document file back to the cabinet with the management card being left in the pocket thereof."

Therefore, the failure to pass this card to the person in charge of maintenance fees was due to human error. It was further determined that this sort of failure never previously occurred (see Declaration of Kosaku Inaoka in Appendix 3). Ai Association concluded that despite human error in this one case, the payment of maintenance fees was being properly managed. Accordingly, the delay in payment of the maintenance fee was unavoidable.

Immediately after learning about the expiration of Patent No. 6,402,070 in August 2010 until the present, Applicant conducted research to determine and

document the reasons why Patent No. 6,402,070 expired. This process included locating individuals involved with Patent No. 6,402,070 and obtaining Statements/Declarations from them. Many of these Statements/Declarations needed to be translated from Japanese to English. Also included in the research process was the locating of documents (many of which were offsite) that contained information about Patent No. 6,402,070 and the payment of maintenance fees.

The above conclusion is supported by the following documents, prepared by Ai Association, that are being submitted concurrently herewith:

Appendix 1, Exhibit 1: Declaration of Fumiko Ohtake

Appendix 2: Sworn Statement of Mami Kitani

Appendix 3: Declaration of Kosaku Inaoka

Kyocera relied upon Ai Association to notify Kyocera when a maintenance fee was due. Upon notification, Kyocera would instruct Ai Association to pay the maintenance fee. In this case, because a record of a due date for the maintenance fee payment for Patent No. 6,402,070 was omitted from Ai Association's docketing system, Kyocera never received a notification. Consequently, Kyocera never sent instructions to pay the maintenance fee.

Hogan Lovells relied upon instructions from Ai Association in order to authorize maintenance fees to be paid to the USPTO. In this case, because instructions were never received from Ai Association, the payment of the maintenance fee was never made.

In accordance with 37 C.F.R § 1.378, please charge Deposit Account No. 07-1896 in the amount of \$4160 to cover the required maintenance fees set forth in § 1.20(e) \$980 (three years and six months) and § 1.20(f) \$2480 (seven years and six months); and the surcharge fee set forth in § 1.20(i)1 \$700.

If it should be determined that for any reason either an additional fee needs to be paid or an insufficient fee or an excessive fee has been paid, please charge any

DECLARATION

I, Fumiko Ohtake, have been employed by Ai Association of Patent and Trademark Attorneys since February 15, 2004 and am in charge of payments annuities/maintenance fees for foreign cases.

I do hereby declare that attached an account of what happened about the overdue of the maintenance fee to be true and correct in every respect on my conscience.

Date: *October 4, 2010*

Fumiko Ohtake

1. Circumstances that the overdue of the maintenance fee payment was found

We were informed from the patentee, KYOCERA CORPORATION on July 22, 2010 that they decided to entrust the other channel with the payment of maintenance fees regarding 5 cases including this case. Based on this instruction, on August 2, 2010, we confirmed the next due date of the maintenance fee payment of each case in order to notify HOGAN LOVELLS US LLP (formerly HOGAN & HARTSON LLP) that KYOCERA intended to transfer the responsibility for fee payments. Reviewing our records, we noticed that a record of due date for fee payment of the said case was omitted from our docketing system, and the due date for the maintenance fee payment of this patent right had been already overdue since December 11, 2005. Immediately we checked Patent Bibliographic Data of the USPTO website, and then found that this patent right had expired for failure to pay maintenance fee on June 11, 2006 without any remedy (see Exhibit 1).

2. Docketing system for due date of fee payments in AI ASSOCIATION

(1) Before 2007

Before 2007, mainly, we had managed the due date of

maintenance fee payments by paper card called by "PAYMENT DUE CARD". Because of a problem in our computer docketing system for intellectual properties at that time, that is, incorrect data in regard to the payment due date might have entered to the system, we primarily used the "PAYMENT DUE CARD" for keeping/watching due dates for maintenance fee payments without cross-check against our computer docketing system. Under our system for checking due date using the "PAYMENT DUE CARD", any problem such as omission has never occurred over the past years.

Specific processes using the "PAYMENT DUE CARD" are as follows:

(i) After a date of issued and a patent number are decided, a clerical staff in charge of a case enters the date of issued and the patent number in our docketing system and put "PAYMENT DUE CARD" into print for the said case.

(ii) The "PAYMENT DUE CARD" is delivered to a staff in charge of payments of annuities/maintenance fees, and the staff docket the "PAYMENT DUE CARD" to our payment records.

(2) After 2008

We have employed a new computer docketing system for intellectual properties since 2008, and we take all possible measures concerning data administration. Under the existing circumstances, we are watching and double-checking for all of

due dates for fee payments with the new docketing system and the "PAYMENT DUE CARD" described above. Specifically, about three months prior to the due dates, a list of due dates is output from our docketing system, and the said list is scrutinized with our records of "PAYMENT DUE CARD" closely. We make a careful examination about each case individually in every month.

3. Analysis for cause that this case was omitted from our records

A "PAYMENT DUE CARD" for this case was found in our file. That is, we probably failed the above-mentioned process (ii) for docketing "PAYMENT DUE CARD" to our records. For this reason, it could not be possible that the staff in charge of payments of maintenance fees pursued the due date of the maintenance fee payments for this case.

In 2008, when we switched over to the new docketing system, all of our records were transferred to the new system from the old system; however, since the payment due date in this case had been already overdue, the payment record for this case has not been extracted from our database of the new system.

Transferring to new computer system, we amended records regarding some cases which had discrepancies in data of the due

dates between the new system and the old system. Concerning this case, however, the payment record for the said case has not been extracted at this step, because the due date in the new system were coincident with the date in the old system.

4. Management of the due date at HOGAN LOVELLS US LLP

We believe that HOGAN LOVELLS US LLP has watched the due date for maintenance fee payments regarding this case, however, we have had no records of correspondences from HOGAN in our file for this matter. Upon checking Patent Bibliographic Data of the USPTO website, we noticed the records "12/28/2005 Maintenance Fee Reminder Mailed" (see Exhibit 1). This shows that the USPTO sent to HOGAN "Maintenance Fee Reminder", however, we have received no reminder or no report from HOGAN in this matter.

DECLARATION

I, Kosaku Inaoka, am a senior partner in Ai association of patent and trademark attorneys, do declare that the statements below are true and correct in all conscience.

- (1) Soon after it was discovered that the due date of the maintenance fee payment of the U. S. Patent right No. 6402070 has not been managed in our office, I asked two workers in our office, Ms. Takahashi who is a chief person of a data management section and Ms. Ohtake who handles foreign patent's maintenance job, to immediately make a throughout search for all our files if there was any other omission. The two workers made the search on August 3 and 4, 2010.
- (2) As a result, the present patent right, U. S. Patent right No. 6402070, is the only one omitted from our maintenance system.

Date: October 19, 2010
